

Cable Mini DisplayPort 1.2 male to DisplayPort male

4K

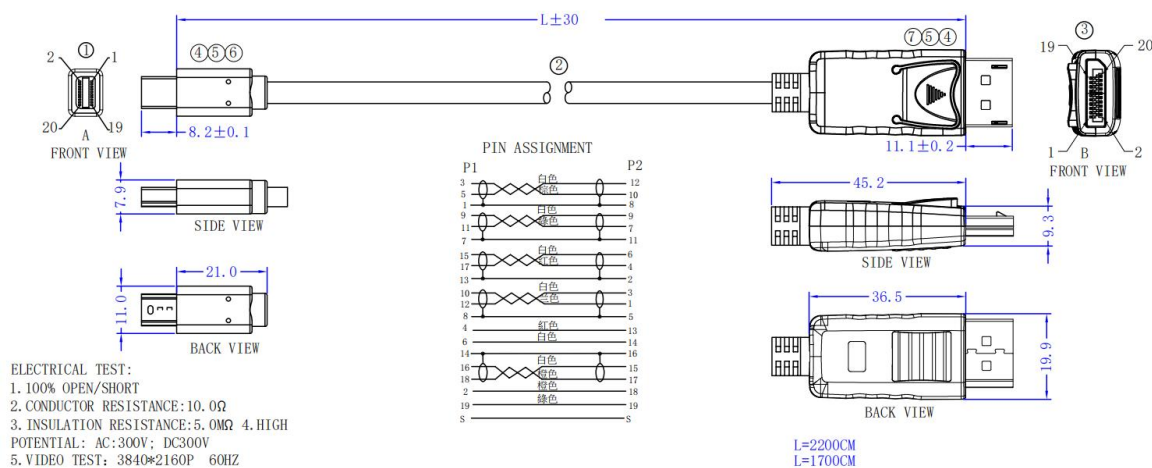

1.4m - 1.7m - 2.2m

Description

The mini DisplayPort (mini DP) to DisplayPort (DP) cable is designed to connect devices with a compact mini DP output to displays or peripherals featuring a standard DP input. This cable supports high-resolution video and audio transmission, making it ideal for scenarios requiring precise visuals, high refresh rates, or multi-monitor setups
